Open Educational Resources

What are OER?

"Open Educational Resources are teaching, learning or research materials that are in the public domain or released with an intellectual property license that allows for free use, adaptation, and distribution." - <u>UNESCO</u>

Each of the STC Library's <u>research/subject guides</u> will also have a tab on OER specific to that subject.

Need assistance getting started or finding OER? The Library offers a special guide on OER <u>here</u>. Our librarians can also guide you in finding these resources. Use the box to the right to contact the library liaison to your department.
